

## Surecell the work leader in stem cell and PA-PRP

By Dr. Tauhida Rahman Ereen

We Surecell Medical team have designed promising therapies with stem cells and growth factor to ensure your optimal beauty. We use your own stem cells as they are safer and more effective, that contribute to the body's ability to renew and repair its tissues. Natural anti-aging solution Stem cell is completely different concept to current mainstream aesthetic treatment such as synthetic fillers, Botulinum toxin etc since those kinds of therapies are solely used to improve the visible changes without having a regenerative effect. As an ideal aesthetician it's better to avoid those artificial products having more complication and difficult to correct if any untoward affect arises. This revolutionary treatment is recommended for all skin type to best reach your beauty goals. Interestingly it is mild invasive procedure and naturally has key role to improve skins elasticity, firmness, and reducing the appearance unwanted lines, ageing wrinkles, acne scar, dark spots, pore size, stretch mark. This innovative Stem cell therapy uses your body's own restorative processes to promote your body's production of collagen and elastin, along with rejuvenate the look and texture of the skin, restore your youthful glow. It may take a few weeks for the results of the stem cell therapy to become noticeable, but you can expect the results of Stem cell therapy to last for up to one year. After that there is no withdrawal effect. Normally our skin loses collagen 1% annually. A few hours session takes years off your skin. Here we utilize IV nutrition, combat stress with hyperbaric therapy in addition to aesthetics procedures to provide a total holistic anti ageing program. Stem cell for total body regeneration Intravenous Stem cell therapy can improve your overall health while giving you a radiant, youthful glow from the inside out. Stem cell carries the power of regeneration and healing of tissues in all parts of our body. Quality of life can be improved with the help of this amazing procedure. As your own fat cell is used so no chance of disease transmission or allergic reaction. Reasons why you should choose stem cell for hair care Nothing ages you faster than damaged, dull, thinning, premature greying hair above all hair fall. Well, with the advent of new technology, you are now blessed with stem cell hair regrowth therapy. The growth factors in your fat cell do their job and hair growth is naturally stimulated. Are you wondering how to hydrate the scalp and get rid of dandruff, itchy scalp? Stem cell therapy will help you in several ways. It will soothe your itchy scalp, nourish hair follicle, stimulate hair melanin production. How it is performed t's considered to be a natural treatment, as it uses the body's own cells rather than a synthetic substance. The procedure is accomplished under local anaesthesia in day care service step wise protocol. Immediately after the procedure, have some rest and resume your daily activities from very next morning. Isn't that wonderful? We Surecell Medical Bangladesh as a part of International health care chain from Australia are committed to provide stem cell therapy in the most authentic diligent and transparent manner within a framework of ethics, safety and quality. Patient satisfaction is our priority. The Writer is a Renowned Cosmetologist and Dermatologist from:, Surecell Medical [BD] Ltd., Crystal point, Plot 2, Road 21, Gulshan Dhaka
